An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Todd Wight on May 18, 2004.

The application has been amended as follows:

In claim 41, last line. after "another" and before the period, the following was inserted:

---, forming said prosthesis---

The title was changed to:

---ENDOLUMINAL PROSTHESIS WITH SUPPORT WIRE---

The following is an examiner's statement of reasons for allowance:

Upon review of the prior art of record, the Examiner noted that the claims distinguish from the closest prior art as follows:

Ferrera (US 6,497,671) appears to have a strip and a wire as claimed but there is no bonding of overlapping regions of the polymer cladding as claimed.

Khosravi et al (US 5,824,053) lacks at least the cladding as claimed as well as the bonding of overlapping cladding as required by the present claims.

Pinchuk et al (US 5,968,091) lacks at least the strip of polymer cladding as claimed.

Art Unit: 3738

Samson (US 5,370,691) lacks at least the wire and the strip as claimed.

There are no clear teaching in the prior art of record that would suggest that the missing element(s) of the above prior art would have been obvious in view thereof. For this reason, the present claims are considered patentable over the prior art of record.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
